Rahul Mehta

Senior AI / Machine Learning Engineer

rahul.mehta@example.com | +91 98450 11223 | Bangalore, India

Summary

Senior AI/ML engineer with 6 years building and deploying deep learning and LLM systems in production. Strong across the full stack: model development, MLOps, and multi-cloud deployment.

Skills

Python, TensorFlow, PyTorch, Hugging Face Transformers, scikit-learn, LLM fine-tuning (T5, LLaMA), AWS SageMaker, Azure ML, GCP Vertex AI, Docker, Kubernetes, MLOps, Spark, Pandas, Responsible AI / AI ethics

Experience

- Senior ML Engineer, FinAI (2021-Present): Built an LLM fine-tuning and evaluation pipeline on AWS SageMaker; shipped a retrieval-augmented assistant serving 2M requests/day with model monitoring and A/B testing.
- Machine Learning Engineer, VisionCorp (2018-2021): Developed computer-vision models in PyTorch; optimized inference with TensorRT, cutting latency 40%.

Education

M.Tech, Computer Science, IIT Madras (2018); B.Tech, Computer Science (2016)

Certifications

AWS Certified Machine Learning - Specialty; TensorFlow Developer Certificate; Deep Learning Specialization (DeepLearning.AI)
